GLOBAL TIGER STATUS

3890

APRIL 2016

Data from IUCN Red List of Threatened Species account for tigers' and updated for countries where national tiger surveys have taken place since the IUCN assessment. Where IUCN ranges have been used, the lower end has been displayed. Tiger population estimates are based on adult and sub-adult (i.e. above 1 year old) tigers only.

WE NEED TO KNOW WHERE THE TIGERS ARE SO WE CAN PROTECT THEM AND UNDERSTAND THEM.
Thumbs Up for Tigers!
Happy Global Tiger Day!
